

A diagram illustrating a nodal metal. It features four dark gray rectangular nodes arranged at the corners of a square. A central cross consisting of two thick blue arrows forms an 'X' shape. The top arrow points from left to right, and the bottom arrow points from right to left. Dashed gray lines connect the top-left node to the top-right node and the bottom-left node to the bottom-right node. The text "nodal metal" is centered below the cross.
